

9th Workshop ELI

GENOMICS OF LYMPHOMA: FROM BASIC TO CLINICAL USE

16-17 October, 2023

Hybrid event

IUC Dubrovnik, Croatia

Monday October 16th

13:45 Introduction: H.Tilly, S. Luminari, I. Aurer

14:00 Session 1: Genomics and lymphomas

14:00	Current overview of genomics in aggressive lymphomas	TBC
14:30	Current overview of genomics in indolent lymphomas	J. Okosun

15:00 Session 2: What genomic brings to the clinic

15:00	The clinician point of view	A. Davies
15:20	The pathologist point of view	J. Cabeçadas
15:40	The molecular biologist	R. Chiarle

16:00 *Coffee break*

16:30 Session 3: Circulating DNA

16:30	State of the art of the technology	D. Rossi
16:50	Clinical applications DLBCL	S. Alig
17:20	Clinical applications MCL	S. Ferrero
17:40	Clinical Applications HL	V. Camus
18:00	Clinical application FL	M. Sánchez-Beato
18:20	Conclusion of the day	

20:00 *Diner in town*

Tuesday October 17th

9:00 Session 4: Ongoing European projects

09:00	LYSA, RT3	F. Jardin
09:20	The UK DIRECT Trial	D. Hodson
09:40	Czech Republic	P. Klener
10:00	European MCL Network	S. Bea
10:20	European Consortium for WM	C. Buske
10:40	FIL, translational projects	M. Ladetto

11:00 Coffee break

11:30 Session 5: Future of genomics

11:30	Evolving role of Bioinformatics	F. Cordero
11:50	AI assisted gene expression	Ph. Ruminy
12:10	Genomics meet radiomics	S. Luminari
12:30	Single cell analysis	M. Alcoceba
12:50	Preclinical models	D. Calado
13:10	Conclusions on the Workshop	S. Luminari
13:20	Wrap up	I. Aurer, H. Tilly

13:30 Buffet lunch at IUC
